ONE VISION. ONE MISSION. ONE PASSION.

What makes us rare is the synergy of our talents - we don't just make things look beautiful, we make things work, feel and act beautifully too.

Passionated about our disciplines and enjoying out-of-the-box challenging projects, we are eager to push ourselves towards the edges of **OUR ART** and to extend the limits of our creative expression by producing innovative and contemporary solutions of highly poetical value, which guide people through the messages that we carry on and enhance the quality of their experience.

Our multi-disciplinary team led by creative fusion of its founding partners brings an added value by combining its distinctive expertise and talents along with its creativity, perfectionism, technical know-how, respect of budgets and sustainable approach to deliver made to measure projects in order to amaze their audience all over the world.

# AIR COLLECTIV

## △▽ SYNERGY

Synergy may be defined as two or more things functioning together to produce a result not independently obtainable.

AIRCOLLECTIV gathers a series of TOP NOTCH individuals, companies and organizations that synergize their particular talents to offer creative solutions in which the outcome is larger and better than the sum of its parts.

We like to use the expression **creative fusion** to describe our artistic and technical approach for achieving creatively unique design and services putting our clients in the forefront of market dispute.

We combine several different expertises to create **visitor/customer/citizen** experiences powered by "innovation", originality and inventiveness. Our highly skilled team brings together awe-inspiring environments. Spaces or places that are visually immersive and interactively engaging.

Graphical design, lighting, industrial and interaction designers, come together with architects, software developers, electrical and mechanical engineers, quality controllers, among others, to collaborate in developing creative yet functional solutions that drive the **visitors'/customers'/citizens'** journey and enhance the quality of their experience.

We like to think of ourselves as **craftsmen of the new** by bringing to life what usually stays only **on paper**. We conceive and design the space, light it up and **fill it** with meaning, creating something that certainly looks and feels different but that is very much pertinent to your **visitors/customer/citizen**. We named ourselves AIRCOLLECTIV precisely because we take what is only ethereal and turn into something real and breathable.

Creating a sense of belonging to a specific landscape - and becoming part of its dynamics - that is what we do best, **by putting people** in the centre of our work and embracing them with our masterly combined use of design, light, sound, colour, marketing & communication and people's willingness to be part of an experience that they probably gone through before.

This approach allows visitors to retail, cultural, learning and other environments to explore content in further detail, by stimulating their active role in uncovering additional layers of information or triggering dynamic visual reactions.

The ability to control, physically and digitally, specific elements through interaction, gives **visitors/customer/citizen** a different sense of experience, one that is more lasting and rewarding.

## △▽ CREATIVE

Whether your brand needs a simple re-fresh or a complete re-design, our award-winning team of creative professionals will make sure you will be looking good in 2021 and in the future!

An optimized brand presents key messages and vivid images at the precise point your target is most actively engaged. That message must rise above the clutter and spark a connection in the mind of the prospect so your brand makes an indelible impression long after the initial contact.

Our roots are in the advertising agency business. However, years ago, we discovered that often the best solution to a client's needs sometimes involved more than advertising. That's when we started looking at advertising as only a portion of a business solution.

**AIRCOLLECTIV is a full-service branding and marketing firm that helps visionary companies emphasize their strengths and elevate their brands.**

**With a complete range of creative capabilities, we craft authentic brand experiences that engage and inspire audiences at every touch point.**
